# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On DECEMBER 26, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
DECEMBER 27 -  
JANUARY 2, 1977  
-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of January 6, 1977, (based on reports from exporters for the week ending December 26, 1976, unless otherwise noted):

Wheat: Activity continued very slow as total sales registered the second smallest weekly increase this marketing year (MY). Japan and Jordan were the only significant buyers. Notable cancellations included 285,824 metric tons (MT) of Soft Red Winter optional origin sales to Poland. This included 115,824 MT for shipment during the current MY and 170,000 MT for shipment during 1977/78. A sale of 20,000 MT of U.S. Soft Red Winter for shipment this MY was cancelled by Ecuador. Weekly exports of 171,300 MT were the smallest this year to date.

Corn: Sales activity was modest with Japan and several European and Western Hemisphere countries active in the market. Destinations were assigned to sales of 202,600 MT which had previously been reported under unknown. East Germany accounted for around half of the switch in destination, while Egypt totaled 51,300 MT. A sale of 130,000 MT for MY 1976/77 was reported to Korea under the daily system. Total sales to the Soviet Union increased by 12,700 MT as a result of changes in destination and a small contract adjustment.

Barley: Activity in the barley market continued slow. The major feature was a reduction in optional origin sales, as a 50,000 MT sale to East Germany was exercised for other than U.S. option.

Grain Sorghum: Sales activity picked up totaling the second heaviest so far this MY. Portugal was the major customer. Around 52,000 MT or 60% of the increase in their total purchases was due to the assignment of the U.S. as the seller on an earlier reported optional origin sale. Israel and Spain were also active in the market. Weekly exports continued heavy breaking the 200,000 MT barrier for the third time this MY.

Rice: Sales slowed with Iran again the major customer. Activity on the PL-480 front was limited to exports with no new sales reported.

Cotton: Activity remains moderate, although sharply below last week's volume. Principal buyers were Korea, Japan, and Taiwan. Outstanding sales and exports total 3.9 million bales or 91% of the USDA export estimate.

Soybeans: Sales activity eased with the EC, Japan, and Spain in the market. Total sales to the USSR fell by 14,000 MT as a result of a change in destination. Weekly exports of 216,200 MT were the slowest in 11 weeks.

Soybean Cake and Meal: Activity was minimal and increasingly higher U.S. meal prices caused a reduction in sales activity. Spain, Poland, Czechoslovakia, and Sweden were the principal buyers.

Soybean Oil: Total sales rose by 24,500 MT. India continued as the major buyer. Exports consisted principally of 10,200 MT to India and 4,000 MT to Panama. The latter represents the first significant exports to Panama during the 1976/77 MY.

Oats: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS  
For Week Ending December 26, 1976

Commodity	:Beginning : : 0/S :	New : :Sales 1/ :	Purchases from : :Foreign Sellers 2/ :	Buy-Backs and : : Cancellations 3/ :	:Outstanding : Exports 4/ :	Sales

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.

## WHEAT EXPORTS IN REVIEW

Exports of U.S. wheat for the first six months of MY 1976/77 -- June through November -- were 14.3 million metric tons, down 21 percent from the same period last year. Exports were down to the Economic Community, Eastern Europe, USSR, Africa and the Western Hemisphere from the previous year. Only Japan and India showed slight increases for all wheat exports. India had small increases in Hard Red Winter, Soft Red Winter and White wheat classes with Japan showing increases in Hard Red Winter, Hard Red Spring, and White wheat.

Three classes of wheat showed significant decreases in exports to most regions of the world. Hard Red Winter wheat exports dropped over 38 percent from last year with Durum and Hard Red Spring wheat down 32 and 24 percent respectively. White wheat exports were about the same as last year at 2.4 million metric tons. Only Soft Red Winter wheat exports were up over last year -- about 21 percent. Over half of the reduction in exports of Hard Red Winter wheat (the largest export class of wheat) were the results of much lower shipment to the USSR. The EC accounted for the largest decrease in exports of Hard Red Spring which was not offset by small increases in some other regions. The Economic Community and Africa contributed to the largest portion of the decrease for Durum wheat.

Soft Red wheat increased exports were the result of higher shipments to Eastern Europe (up almost double), Economic Community, India and other West Europe.

The 1976 world harvest season has resulted in good to bumper crops for most major producers of wheat. This larger stock of available wheat will cause stiff competition among the major export countries.
